Corporate Mission Statement of Limedion GmbH

Limedion GmbH in Mannheim applies coatings, analyzes surfaces, and manufactures alloys for medical applications. We have established a corporate mission statement that focuses on our customers, our services, the continuous improvement of our processes, and our suppliers.

CUSTOMER-FOCUS AND CUSTOMER SATISFACTION

Our customers are the top priority of our corporate policy. They have a need for the products and services of Limedion GmbH and express their interest in working with us by submitting an inquiry. A customer will only submit an inquiry if he or she trusts Limedion GmbH to meet his or her requirements. Limedion GmbH accepts orders only if they can be fulfilled in accordance with the customer's requirements and if they clearly demonstrate economic value creation. From our perspective, this is the only way to build a strong, long-term business relationship. As partners, we always work in close dialogue with our customers. We strive to understand customer requirements as thoroughly as possible, to increase customer satisfaction, and to continuously expand our customer base. Limedion GmbH relies on customer orders, which is why the customer's perspective is of great importance to the company. From the customer's perspective, the following aspects should be paramount: – technical expertise – customer-oriented approach – high-quality services – professional conduct – high reliability – fairness – honesty and transparency.

HIGH-QUALITY SERVICES

The quality of our work is the foundation of our business success. The quality of the services we provide is ensured through a structured approach to work, qualified employees who receive regular training, and the use of reliable machinery, tools, and testing equipment. This structured approach is defined in a quality management system. The continuous improvement of our quality management system and the associated processes enables us to work effectively and efficiently, thereby ensuring stable earnings and the future of the company.

Corporate Mission Statement of Limedion GmbH

CONTINUOUS IMPROVEMENTS

We strive to constantly work on improving the quality and effectiveness of our products and processes. Newly introduced processes are documented immediately, and the documents are managed accordingly to ensure consistently high quality in all areas. These processes are transparent and clearly defined, and are subject to a continuous improvement and development process.

RESPONSIBLE SUPPLIER SELECTION AND LONG-TERM PARTNERSHIPS

In all our business areas, we rely on the use of high-quality equipment and high-purity chemicals. We therefore set high quality standards for our suppliers and support them in pursuing our shared quality goals. We do not select suppliers based solely on low prices; a long-term, reliable, and fair partnership with our suppliers is equally important to us.

Mannheim, 2026-09-16
